[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO AUGUST 1.

BY ATLANTIC CABLE

French Affairs.

PARIS, July 31.—The acceptance of the resignation of Favre is confirmed.

The number of Communists awaiting trial is 32,000. In order to render possible the disposition of so great a number of cases, a bill was introduced in the Assembly lessening the number of judges and removing the restrictions from those judged who have at any time committed themselves against or been obliged to act against the Versailles Government.

The result of the first and second elections for members of the Municipal Council of Paris shows that it is composed of 38 Conservatives, 7 Moderate Republicans, 27 Republicans, and 10 Ultras.

Thiers, in replying to a delegation from the occupied provinces, intimated that in six weeks the occupation of German troops would be limited to Champagne and Lorraine.

Dispatches from London.

LONDON, July 31.—The House of Commons tonight passed a bill granting an allowance of one hundred thousand pounds per annum to Prince Arthur. The vote stood as follows: 70 yeas; 11 nays.

The House of Commons went into committee on the election bill. Gladstone opposed the various amendments. A division was had on the proposition that election expenses be paid out of the local taxation, which resulted in a majority of 96 against the Government.

A meeting in Trafalgar Square, to protest against the allowance to Prince Arthur, was held to-night. Five thousand persons were present, and were addressed at different points amid much excitement. The entire police force was out. The police joined a Communist flag carried by one of the clubs amid the demonstrations. Some fighting is reported and some arrests were made. The meeting adjourned in disorder. The crowd were dispersed by the police.

LONDON, July 31.—The Government to-day prohibited the meeting in Trafalgar Square, and massed the police and soldiery there to prevent the assembly. Alarmed at the threatening aspect of the populace the force was withdrawn, and an immense meeting was held without molestation, and violent revolutionary sentiments were expressed.

WASHINGTON CITY.

WASHINGTON, July 31.—The Secretary of the Treasury has directed the Supervising Inspector of Steamboats to make a thorough investigation into the boiler explosion at New York yesterday.

The President has appointed Morat Giddings of Michigan, Governor of New Mexico, and W. S. Warring, Assessor of Internal Revenue for the District of New Mexico.

The Ku Klux Committee adjourned to-day to September 20, leaving here an sub committee Senators Pool and Blair, and Representative Buckley.

EASTERN STATES.

The Steamboat Disaster at New York.

NEW YORK, July 31.—The total number of deaths from the boiler explosion yesterday thus far is 57. Thomas P. Powers, Inspector of Boilers in Brooklyn and Examining Engineer, and who inspected the boiler of the *Westfield*, states that the explosion occurred from over pressure of steam, as there is no appearance of low water. On the contrary there is every sign that there was plenty of water in the boiler.

Victims of the New York Disaster.

NEW YORK, July 31.—The Morgue is closed, and policemen are stationed at all the approaches to keep back the crowds. Many more bodies have been found, thrown into the main admission. Twenty bodies are in the Morgue waiting to be recognized.

Mace and Coburn met in the *Spirit of the Times* office to-day. Each made a deposit to fight, and then crossed to Jersey City and paid down the remainder of the stakes.

POLITICAL NOTES.

Maryland Democrats refuse to "Repent."

It is confidently asserted among Democrats, notwithstanding the *Herald's* statement, that Col. Kelly does not "repent," and many are in consequence that he has been so represented.

The late New York riot is generally supposed to have shelved the Presidential chances of Gov. Hoffman; but, the *Atlanta Georgian*, a paper published in Atlanta, don't think so. It exhorts the Democrats of the South to unite on the "new departure," and on Hoffman for President.

Speaking of the late efforts of Newton Booth and Gov. Haight in San Francisco, the *Alta* remarks: The speech of Newton Booth, delivered at Platt's Hall, was the production of a finished scholar and profound philosopher. It abounded in thought, eloquently and forcibly expressed. There was to it but the faintest trace possible of newspaper adaptation. The oration of H. H. Haight, on the other hand, did not contain a single idea which had not previously been luminously better presented in the organs of his party.

CURRENT NOTES.

This is the way in which the Chicago *Republican* celebrates the purification of the sewerv Chicago River by turning into it the pure waters of Lake Michigan:

"There once was a stream at Chicago,
Its villainous stench did enrage,
Till the sewerage
To the lake we engage,
And then there was fun in Chicago.

One of the first acts of the new Fijian Government was to advertise for proposals for laborers. The defeated Lavoni tribe has departed bodily to Levuka and sentenced to hard labor for life, and it is proposed to hire out the common hands to planters for the benefit of the royal treasury.

The brig *San Francisco*, which left this port bound on a fishing cruise in the Okhotsk, arrived at Honolulu in distress 58 days after leaving here.

SAN FRANCISCO, August 1.—The sailing of the steamer *John L. Stephens* for Portland, announced for to-day, is delayed until to-morrow to await the arrival of Ben Holladay, Jr.

Emily Butts Stevens, a colored woman of Mrs. Fair, applied to County Clerk Hasing to be registered as a voter, to-day. On being refused she threatened to bring suit against him for damages.

The Italians are making extensive preparations for celebration on Sunday next of the occupation of Rome as the Capital of the Kingdom of Italy. The Garibaldi Guards will escort the Italian Benevolent Society and Independent Italian Association, and several of our local military companies have volunteered with them, in view of possible complications.

Among the passengers by the *America*, for Japan to-day, is Gen. Horace Capron, late Commissioner of Agriculture.

The *America* had forty-seven white and three hundred Chinese passengers. The *City of Adelaide* brings news of the loss of the British ship *Napier* at Baker's Island. She belonged to Liverpool.

A boy nine years of age, known as Baby Roland, while attempting to catch a horse at old Butchertown yesterday was kicked in the forehead, breaking his skull and, it is supposed, fatally injuring him.

The Republican County Committee in session this evening did not order the nomination of a municipal ticket.

The Fenton Democratic Club is having a full meeting and many are becoming members.

The Democratic Municipal Nominating Convention this evening went to work with unexpected unanimity, nominating Tylor Curtis by acclamation for Mayor. The Democratic Legislative and Judicial Convention renominated Samuel H. Dwinelle for Judge of the Fifteenth District Court.

INTERIOR CALIFORNIA DISPATCHES.

The Troubles in Amador County.

SUTTER CREEK, July 31.—Last night the powder house of Poundstone, near the old Hubbardville mine, was broken open and eight kegs of powder stolen. To many this is a fact of no little significance, and it is believed that we shall next hear of some first class explosions.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

BY ATLANTIC CABLE.

French Affairs.

LONDON, August 1.—Bazaine is in London.

VERSAILLES, August 1.—The Assembly has imposed a tax upon raw materials. Government does not intend dissolving the Guards.

PARIS, August 1.—Bourse opened flat. Rentes 55 francs and 47 centimes.

Dispatches from Rome.

ROME, August 1.—Elections are apathetic. Two-thirds of the electors abstained from voting. Moderates generally are successful in the city and provinces.

There is great excitement here over the vote in the French Assembly on the position of the Pope. Journals regard it with wonder as probable and accuse the Ministry of betraying the country. The *Gazette* says that the Government should not have gone to Rome, but, having gone, must stay, though dark clouds should envelope the political horizon.

Cholera in Europe.

LONDON, August 1.—There is a growing uneasiness in the public mind on the fact that the cholera has been raging for two years in Russia. As the terrible scourge had not yet reached the frontier, a close watch has been instituted to prevent its progress. Apprehensions exist everywhere. If not having advanced upon Germany in the usual way it may now come by way of the sea, and the Government has presented regulations to be enforced upon all ships from Baltic ports. There has been recently some cases at Hull, which is on the route of emigrants from North Germany to America.

There is some anxiety touching cholera which appears in the southern part of France. One case occurred at Hull. Precautions are taken.

Prince Arthur will shortly be created Duke of Connaught.

The Duke of Edinburg has returned to England.

The United States steamers *Juniata* and *Franklin* are at Southampton.

The French Legations at Dresden, Darmstadt, Hamburg and Weimar are suppressed.

WASHINGTON CITY.

National Affairs.

WASHINGTON, August 1.—President Grant, accompanied by General Porter, arrived here this morning. His appearance was a surprise except to members of the Cabinet.

At 11 o'clock the Italian Minister called and had an interview with the President, the former communicating to the latter the love of his country. Rome. [illegible]

At 3 o'clock the new German Minister, accompanied by Baron Alvinsleben and an attache of the Legation, repaired to the Executive mansion. Secretary Fish arrived soon after the President, when the Secretary presented the new Minister to the President. The customary speeches of reciprocity, good feeling and national friendship were made.

After the distinguished visitors retired, a Cabinet meeting was held, at which all the heads of Departments except the Postmaster General were present.

The President made the following appointments to-day: Durance Atwater of Connecticut, Consul at Tahiti, Society Islands; George Toy, Collector of Customs at Cherry Stone, Virginia; Charles A. Martin, Assessor, John McBride, Superintendent, and Dr. H. Hughes, Clerk in the Branch Mint at Boise City, Idaho.

EASTERN STATES.

New York News.

NEW YORK, August 1.—Up to one o'clock this morning the dead numbered 72. Adams wounded were not expected to live from one moment to another. All the bodies have been recognized. Over 80 wounded remain at Bellevue. Probably 50 more are scattered about in private houses of this city and Brooklyn.

The *World* publishes the names of 71 persons killed by the explosion, and says others are sight bodies unknown. The *Herald* raises the number of killed as seen greater, and the names of 127 injured. It is believed that many more bodies will be taken out of the water, and of course others will never be found. The most painful after feature of the tragedy is the appearance at the hospitals and station houses of hundreds of anxious and half-crazed people inquiring for missing friends and relatives. One poor fellow, Michael Finlay, who lost his wife and child by the explosion, has gone mad and attempted yesterday to commit suicide by drowning.

Steamboat Inspectors Matthews and Bole commenced an examination to-day by order of the Secretary of the Treasury.

Large Decrease of the Public Debt.

WASHINGTON, August 1.—The decrease of the public debt during the past month was $8,701,976. The coin balance is $83,742,700; currency balance, $8,168,318.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Aug 1.—Two hundred and fifty bales of Australian wool was received by the *City of Adelaide*, from Sydney, and will be sent East overland.

The *America* to-day carried the heaviest cargo which has ever left this port by steamer. It included 7,000 barrels flour for China. The *City of Adelaide* will sail on her return trip on Tuesday next.

Gen. Stevens, who has for years preyed upon his ignorant countrymen, was to-day sent to the County Court for trial in charge of conspiracy to defraud a farmer out of his money at the strap game.

One of the first acts of the new Fijian Governments was to advertise for proposals for laborers. The defeated Lavoni tribe has departed bodily to Levuka and sentenced to hard labor for life, and it is proposed to hire out the common hands to planters for the benefit of the royal treasury.

The brig *San Francisco*, which left this port bound on a fishing cruise in the Okhotsk, arrived at Honolulu in distress 58 days after leaving here.

SAN FRANCISCO, August 1.—The sailing of the steamer *John L. Stephens* for Portland, announced for to-day, is delayed until to-morrow to await the arrival of Ben Holladay, Jr.

Emily Butts Stevens, a colored woman of Mrs. Fair, applied to County Clerk Hasing to be registered as a voter, to-day. On being refused she threatened to bring suit against him for damages.

The Italians are making extensive preparations for celebration on Sunday next of the occupation of Rome as the Capital of the Kingdom of Italy. The Garibaldi Guards will escort the Italian Benevolent Society and Independent Italian Association, and several of our local military companies have volunteered with them, in view of possible complications.

Among the passengers by the *America*, for Japan to-day, is Gen. Horace Capron, late Commissioner of Agriculture.

The *America* had forty-seven white and three hundred Chinese passengers. The *City of Adelaide* brings news of the loss of the British ship *Napier* at Baker's Island. She belonged to Liverpool.

A boy nine years of age, known as Baby Roland, while attempting to catch a horse at old Butchertown yesterday was kicked in the forehead, breaking his skull and, it is supposed, fatally injuring him.

The Republican County Committee in session this evening did not order the nomination of a municipal ticket.

The Fenton Democratic Club is having a full meeting and many are becoming members.

INTERIOR CALIFORNIA DISPATCHES.

The Troubles in Amador County.

SUTTER CREEK, July 31.—Last night the powder house of Poundstone, near the old Hubbardville mine, was broken open and eight kegs of powder stolen. To many this is a fact of no little significance, and it is believed that we shall next hear of some first class explosions.

Important Arrest.

SAN JOSE, August 1.—About five years ago Mr. Walker was murdered at Mountain View by a man named Hann. The murderer escaped, and there has been no clue to his whereabouts until two weeks ago, Sheriff Harris heard he was at Long Pine, Owens River, in Inyo county. Harris started on his journey. Arriving at Independence he learned that Hann was working in a blacksmith's shop, on Owens river, under the name of Wilson. Entering the shop Harris visited him by the hand with a cordial greeting of "Hallo! how are you, Wilson?" and quietly disarming suspicion, and leading him away from the bench on which lay a six shooter. While engaging his attention Harris slipped a handcuff on one wrist. Hann drew back the other to strike, at the same time asking what he wanted. Harris pretended he had a warrant for arrest for burglary at Sacramento two years ago, upon which Hann confessed to be handcuffed, saying he could prove he had not been in that place for four years. Whereupon, however, he was lodged in jail in Independence and learned the true cause of his arrest, he vowed he would never have been taken alive if he had been told so at first. Harris arrived in town this morning with the man.

Municipal Murder.

[From Tilton's Golden Age.]

It was Napoleon who said of a battalion of boys, "They are good enough food for powder." The municipal authorities of New York looked in the faces of their stunchest, and concluded that the best use they could be put to was to be shot. And the shooting took place on the Twelfth of July. That is the long and short of the riot which has added another deep disgrace to our city, and sprinkled our pavements once more with human blood.

If the authorities had decided to get up a riot and then kill half a hundred people in putting it down, they could not have contrived the affair with greater ingenuity and carried it out with more brilliant success. In the first place, Orangemen were forbidden to parade only the day before the procession was to take place, when a vast number of Catholics were armed, drilled, and fully prepared to resist their progress, and fight to the death. The Orangemen had no idea of disobeying that order, and putting themselves in an attitude of hostility to the authorities. But the public sentiment of the city was outraged by the order. A society of Protestant Irishmen forbidden to march through the streets of an American city! The proclamation aroused the indignation of the people. Nothing since the firing on Fort Sumter and the assassination of Lincoln has so stirred the patriotism and stung the pride of our citizens as the order of the Chief of Police. The city bristled with excitement, and every American was enraged. It was evident that something must be done to avert the storm that cowardly incompetence or demoralized delinquency had brewed. Then the Governor rushed into the arena; the infamous order was rescinded, the Orangemen were assured of protection; the mob, which had been pampered and caressed until it had every reason to believe that the city was under its feet and the Mayor was its tool, surged through the streets, attacked whoever it pleased, stormed at a ball, made a rush at the hated Orangemen, and paid the penalty in blood. Half the victims were innocent, and some of them were women and children. Over every corpse the Coroner should render the verdict, "Murdered by the Governor of New York."

That the Mayor forbid the Orange procession at the dictation of, or for the sake of the support, of the Catholic population there is not the shadow of a doubt. And there is hardly a question that the Governor interfered and precipitated the fatal catastrophe for political effect. Political ambition killed fifty-five persons and wounded two hundred more. And this in the metropolis of America, in 1871! And this is Democracy!

The Orangemen, as a society, have very little of our interest or sympathy. It is but natural that people emigrating to this country should keep alive the memories, traditions, and associations of their ancestors, and decorate their new home with imported pageants and ideas. There is nothing reprehensible in the custom. Even our fasts and feasts and venerated names are importations. The larger part of our life is under ground, and much of it is over the seas. If not the Orangemen, nor their special fanaticism, whatever it is, that we care for, but the principle at stake. They stood the other day as the representatives of an idea—the idea of religious liberty in this Republic. They had just the same right to march in procession through our streets with banners and music and symbolic devices, as any other body of men that tread our soil and breathe our air. And when the authorities of our city forbid their doing so, they struck a blow at all that makes American independence worth the having. It was not men it was liberty that the municipal authorities tried to murder.

And, thank God, the blow has recoiled with fatal effect upon the heads of the men who dealt it. Well may they tremble at the doom they have written for themselves and the party they represent. It is the fate of some men to be remembered.

River Improvements.

The Salem *Statesman* of Tuesday contains the following:

The Government has appropriated the sum of $16,000 for the removal of bars, snags, etc., existing in the Willamet river beyond Oregon City and Corvallis. In the act making this appropriation the following bars and rapids are mentioned: Beaver Rapids, Long Tree Rapids, Mattney's Bar, Chitwood's Bar, Humphrey's Rapids and Bower's Bar. The gigantic work is under the immediate superintendency of Major H. Robert, assisted by Mr. Frank West. The P. T. Co., as has been heretofore mentioned in these columns, have fitted up the *Success*, and have had made at the Oregon Iron Works a scoop, with the consent of the Superintendent of the work, from the models and specifications sent from the Engineer's Department, which is fitted on to the bow of the boat in such a manner that it will remove the sand from the shallow places in the river, and by properly managing the boat, scoop it into the deep places below the bar. It was originally proposed to let the job of removing these bars out by contract, but Major Robert thought that he could use the $16,000 to a better advantage if he accepted the proposition of the P. T. Co., which is that they fit up the *Success*, place a crew at his disposal, and allow the work to be under his supervision. Should the $16,000 be sufficient besides removing the bars above spoken of, other improvements in the river will be made, and everything dangerous to navigation will be removed. Work will be commenced in a short time upon the bar below Salem, it being the most dangerous at the present time.

THE CZAR AND THE PRESS.—The recent suppression of the Moscow *Gazette* by the St. Petersburg government, was a very bold movement, even for the Emperor of all the Russias. The *Gazette* was the organ of the nobility of the empire, and these classes are hostile to the policy of Alexander. They cling to the ancient idea of triumph on the Bosphorus and Danube, through French alliances, while the Emperor holds close relations with Bismarck. The *Gazette* has showered invective and poured remonstrance, feeling confident that its backing would preserve it from interference; but Alexander, now that France is weak, feels strong enough to defy the strongest foes of his policy; and hence, has closed out the *Gazette*. The *Gazette* had a circulation of about 150,000, among the very best classes of Russians.

The largest tow that ever passed Detroit was made a few days since by a steamer which had in draft eight barges and 7,881,000 feet of lumber, besides 1,300,000 shingles.

OREGON.

Teams are hauling Government supplies from Salem to Fort Klamath.

George B. Dorris advertises 10,000 acres of farming and grazing lands in Linn county for sale.

From the *Statesman*: Messrs. J. E. Wilten and Skaife Brothers, formerly of this place, are building a grist mill at Lincoln, to run in connection with their saw mill. The mill is to be 26x36 feet, to be three stories in height, and will cost between $5,000 and $6,000. There is to be but one run of stone at present, but the proprietors expect to put in another run next season. It is expected to be completed about the first of October.

THE TERRITORY.

Parties are now offering sixty cents a bushel for Wheat at Walla Walla.

A man has been committed to jail at Walla Walla, in

The Daily Oregonian.

WEDNESDAY MORNING, AUGUST 2, 1871.

Between us be Truth.

From an article which appeared in the *Bulletin* yesterday, we make this extract:

Republicans last year censured ex-Governor Gibbs for an unhappy slip of the tongue he made in regard to the Irish at a public meeting just before the election, because it was calculated to drive Irishmen from the support of the Republican ticket. But the speech of Governor Gibbs was as milk in vitriol in contrast to the persistent, unfair, intolerant, proscriptive, and actually malignant assaults against the great body of Irish born citizens which have been given editorially in the Republican organ in this city daily since the news first reached here of the riot in New York, and the consequence of these attacks will very naturally be to cause the Irish adopted citizens to cast their votes against the party whose chief organ can find no other terms to which to speak of them than such bitter and sweeping denunciation of all of their race or faith. We know of no small number of voters who are of Irish birth, who have within a year or two acted in good faith with the Republican party—and they are men who seek neither office nor political favor—who will long hesitate before they will again vote that ticket, and they have been forced to this attitude solely because of the very wanton and utterly one-sided and malevolent assaults of the Republican organ here in the manner we have instanced.

There was no occasion for the *Bulletin* to misrepresent the OREGONIAN in this matter. To begin with, it is utterly untrue that this paper has spoken in "bitter and sweeping denunciation of all persons of Irish birth or faith." We have denounced the New York rioters as they deserve, and have insisted that Orangemen have as good a right to parade in peaceful procession on the anniversary of the battle of the Boyne, as Catholics have to parade on St. Patrick's Day, or on the anniversary of the accession of Pius IX to the Papal throne, or as the Germans have to celebrate in a peaceful manner the great triumph of their country, men at Sedan. They who cannot understand that one of the primary principles of American liberty is involved in this matter are really in need of understanding those principles. The *Bulletin* commended the shameful order of Mayor Hall, which Gov. Hoffman was compelled by the tremendous pressure of public opinion to set aside. It wanted the Orange parade prohibited, and deeply regretted that the mob, in demanding the suppression of the parade, was not permitted to have its way. Some might suppose from the comments of its editor if he had been in New York he would have participated in the assault upon the procession. The *Bulletin* has argued that the Orangemen had no right to parade, for the reason that it was known that their appearance would exasperate another class, between whom and themselves there is a feeling of animosity. On the same ground it could be argued that any other society as well as the Orangemen, might be deprived of their right to assemble and parade. They who argue thus strike a blow at a fundamental principle of American liberty. Such a doctrine will not be tolerated in this country for a moment. How it was received in New York, let the terrible storm of public wrath and hot indignation, which swept all before it and forced the Governor to yield, bear witness!

We have spoken in severe terms of the rioters, but have not denounced them as Irishmen. Many Irishmen whom we personally know admit the right of the Orangemen to parade, and denounce the idea of prohibiting them. These are men who are indoctrinated with correct ideas and free principles. They would not claim for themselves a right or a privilege which they would deny to others. They perceive that a principle is at stake, and that the party which prescribed or prohibits another, may, in its turn, be prescribed or prohibited to-morrow. Such men have too much judgment and candor to assert that because we denounce the New York rioters we denounce all of Irish birth or faith. If the *Bulletin* means to intimate that we have made an assault on the religious faith of any class, that insinuation is unfounded as the other. We have said, and here we repeat, that we would go to the utmost extent to maintain the rights of Catholics as to uphold the rights of any other class or sect of our people.

We have no fear that any believer in equal rights will be alienated from the Republican party by what we have said upon this subject. They who do not believe in equal rights, but who hold with the *Bulletin* that one class can say to another, "You *shall not* hold processions, while we will have as many as we like," will probably never make good Republicans any way. They are better fitted for a despotism.

The chief error of the *Bulletin* is that in treating this question it has totally misapprehended the principles of American liberty, and has no conception of the underlying ideas of our free government. Its editor has mistaken public sentiment on this question as completely as he mistook it in 1861, when he was a secessionist. We do not say that this is an intentional fault; but we will say that, having been misled as to the principles of our government and the sentiments of our people heretofore, there is less excuse for his falling into a similar error again.

A Catholic Paper's Views.

The *Western Catholic*, a paper published at Detroit, says of the Orangemen: "We question their taste in celebrating an event which, though remote, is still remembered with passionate anger by a large number of their fellow citizens; but in this difference our right of criticism ends. They are not responsible to us for their taste. Their action is foolish; but there is no law, that we have heard, against foolishness which is unattended by an overt breach of the peace. The Orangemen have as much legal right to celebrate the anniversary of the battle of the Boyne as we Catholics have to celebrate the Pope's Jubilee, St. Patrick's Day, or any other festival, and they have a perfect right to choose any method of celebrating it which pleases them, so long as their programme does not include riotous conduct or speech, or any interference with the property or persons of their neighbors." This is well said, and the spirit of it will be every where commended.

The exports of petroleum in 1870 were thirty-seven per cent greater than those of the previous year, and that nearly all this increase of thirty-seven per cent is accounted for by the shipments from the port of New York. The total export from the United States in 1870 was 141,208,155 gallons, against 1,500,000 in 1860, and 39,281,000 gallons in 1868, showing an increase of nearly 42,000,000 in two years.

The unhappiness at Puget Sound in regard to the "terminus" continues. Every one imagines that he is going to make an immense fortune out of corner lots when the terminal city is located. This has been with the settlers there the delusion of half a life time. In a few years they will know that it makes little difference to their country where the terminus is located.

Asiatic Cholera.

From the New York *Herald* we learn that Asiatic cholera has made its appearance in Poland, and that journal, anticipating the spread of the plague westward, is already suggesting strict sanitary observance for New York and other cities. The fact of the existence of cholera in Poland has been officially acknowledged by the Russian authorities, and judging by the past, the *Herald's* cautions are not premature. The plague which has visited the United States on several occasions came from the East. The *Herald* says on the subject:

If we mistake not, it was in 1817 the plague broke out fiercely in the Indies, and after decimating towns and carrying off large numbers of the people of the East, it slowly continued its march toward the European frontier, and in 1829, or thereabouts, it broke out in Southern Russia, pretty much in the same manner in which it now appears in Poland. In 1830 it raged fiercely in the city of Moscow, and in the following year nearly the whole of Central Europe was under its evil influence. A year later, in 1832, it made its appearance on this side of the Atlantic. Quebec was the first city in which it appeared, then Montreal, and afterward New York, after which the disease spread in various directions.

It is the old theory that a metallic currency is the only currency suited to the country. But in later times others have become satisfied with paper as a circulating medium based upon gold and silver, into which at any time it shall be convertible. This we take to be the most popular idea of currency. The New York *Mercantile Journal* has broached the subject of currency reform. It takes the ground that the legalized currency of a nation underlies and really controls all the industries, and that therefore it is a question of paramount importance. The *Mercantile Journal*, after an earnest study of the subject, comes to the conclusion that "an exclusive paper currency, based upon the national wealth," is the best.

It seemed to be probable for a time that the "Japanists" would prevail in Democratic councils in this State. But of late the aspect of affairs has been changing considerably, and the "fine old Bourbon" element of the party is getting decidedly ahead. The Republican candidate for Governor of California, in a recent speech, said: "Parties do not change in an hour by the passage of a resolution." In this observation a great truth is expressed, and in this State we have an exemplification of it.

At Rainier, the fightingers are not quite particular enough how and what they bite. One of them, named Washburn, in a fight the other day bit his antagonist's nose entirely off.

Alaska Affairs.

[From the San Francisco Bulletin.

On Saturday last, W. H. Dall, author of a valuable book on Alaska, arrived in this city from the East. Mr. Dall has been a member of an expedition to Alaska hitherto, but on this occasion he will visit that country as a commissioner of this Government. It will be his purpose to investigate the social and commercial affairs of Alaska, and make a reliable, elaborate report to headquarters. Congressmen and others having denounced the country as a worthless, barren waste, a place only fit for the abode of the great white bear and the untutored savage, it will be the duty of Mr. Dall, to ascertain the truth of those statements. He may find that parties who wish a monopoly of trade and traffic have been industriously circulating false reports; such an event is not altogether improbable. Last year, the Government realized $2,500,000 from Alaska's products, and this does not include the amount received for fish. This year the rental of the Pribiloo Islands to the Alaska Fur Company is $55,000; the permission to kill 100,000 seals, $2 62 1-2 each skin, costs up $262,000; oil from the seals, 200,000 gallons, $115,000. Then add to this the trade in furs other than those of seals, and we have a very respectable sum. Alaska abounds in many species of valuable fur-bearing animals, the killing of which is not prohibited. Since '70, the importation of Eastern codfish has materially decreased; Alaska not only supplies the coast, but exports fish to Australia and New Zealand. It does seem, with this array of facts and figures, that Alaska is not one grand, unproductive iceberg.

Mr. Dall will investigate the social relations of the natives, and if the facts warrant it a system of public instruction in the English language will be recommended. This is the wisest step the Government can take. Many of the natives, particularly among the Aleuts, read and write the Russian language, and the work of enlightening them upon American affairs can be specially accomplished. Of course it cannot be expected that the industries of our politicians will be readily comprehended by the real lawless; perhaps it were better that they should remain in blissful ignorance of many political pranks; but of one thing we are certain, it should be the policy of the Government to teach English to the people with all convenient dispatch. Mr. Dall will leave for Astoria in a few days, at which point he will take the coast-survey vessel *Humboldt*, and proceed to the Aleutian Islands, his intention to remain in Alaska one year, making some point in the Aleutian Islands his headquarters. Mr. Dall is a scientist, has had experience in Alaska, and we may reasonably anticipate good results from his present expedition.

For Throat diseased and affections of the chest, Brown's Bronchial Troches or Cough Lozenges are of great value. In Coughs, Irritation of the Throat caused by cold, or unusual exertion of the vocal organs, in speaking in public or singing, they produce the most beneficial results. The Troches have proved their efficacy.

REMARKABLE CURE OF MRS. SCOVER.

TCALATIN PLAINS, WASHINGTON Co., OREGON, July 22, 1871.

DR. A. M. LORVEA—I have been troubled with Rheumatism for the past *twelve years*; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a large bony excrescence grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Uni. Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the bony excrescence entirely disappeared and I can use my limbs and am far better than I have been for years.

M. HOOVER.

Wife of Hon. Jacob Hoover, ex-Treasurer of Washington county, Oregon. jy23d1m2p

MARSHAL'S CITATION.—UNITED STATES OF America, District of Oregon.—Whereas, a libel hath been filed in the District Court of the United States of America, for the District of Oregon, on the 31st day of July, 1871, by E. A. Cronin, Esq., Proctor, in behalf of Isaac Thomas and against the steamboat "Wolfoot No. 2," and praying the usual process and monition of the Court, that all persons interested in the said vessel, her tackle, apparel and furniture, may be cited to answer the premises, and all due proceedings being had, that the same may be decreed to be sold, and the proceeds thereof to be distributed according to law. Therefore, in pursuance of the said monition to me in that behalf directed by the Court, I do hereby give notice generally, unto all persons having or pretending to have any right, title or interest therein, to appear before the aforesaid Court, at the city of Portland, on the 2d day of September, A. D. 1871, it being a court day, or also on the next court day thereafter, at 10 o'clock in the forenoon, then and there to answer the said libel and to make their allegation in that behalf.

Dated at Portland, in said District, the 25th day of August, A. D. 1871. THOMAS G. YOUNG,

E. A. CRONIN, Proctor. United States Marshal.

TO HOUSE BUILDERS & PAINTERS.

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure lead, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned: They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use, and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 16, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It washes our smoky atmosphere better than any Paints I have tested. The colors are rich and reliable. Altogether I find them the CHEAPEST AND BEST.

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.

WM. F. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 90 cents per gallon in favor of the former.

THE COUNCIL CHAMBER FLOODED.—About two o'clock yesterday morning, a hose broke in Corbett's building, which occupies a room directly under the Council Chamber, discovered a leak of water through the ceiling overhead. Upon making an exploration of the regions above, the Council Chamber was found flooded, water coming down through its ceiling. After the [illegible] of an aggravated Westcott rain. Further [illegible] rations in the story above resulted in the discovery of an open hydrant in the wash room of Buck's photographic gallery. It had probably been running for several hours, as the floor was covered with water to the depth of an inch or more, while [illegible] them much water not only in the C[illegible] Chamber, but also on the second floor below. The gentleman who made the discovery put a stop to the leak and roused assistance to f[illegible] the furniture of the chamber from damage. By [illegible] the place looked as though it had had a sudden and severe attack of "moving day." The ceiling of the chamber was still weeping great drops, which an Ethiopian attendant was striving to catch [illegible] buckets, tubs, kettles, pans, etc. The [illegible] and carpet will be considerably damaged and the furniture slightly. The hydrant has been left open by the picture printers [illegible] by Mr. Bushnell.

INTERESTING TO THE GUARDS.—The public is aware that for the last year or two the circulation of counterfeit money has been [illegible] in this city and vicinity, in large numbers. Not many persons could be deceived by such things, but there are gudgeons and dishonest men in all communities, and it is not at all improbable that a few such may have taken the bait. If there are any such here, it will be interesting to them to learn that the authorities have dropped upon several of the counterfeit "exchange," and that a full list of the names of persons who have ordered counterfeit money is being p[illegible] lication, and that it will be [illegible] to the authorities all over the country.

FROM BELOW.—The steamer *Dixie Thompson* arrived last evening from Astoria, bringing a great crowd of passengers—men, women, children and Chinamen. They were mostly from the [illegible] of other points to which excursionists are wont to go during the "heated term." The cold weather of the last few days has [illegible] really frozen out all the beach visitors except those who could stand in the front row around the fire. Capt. Simpson of the bark *Whistler* came up. He reports that his vessel will be up to-day, in tow of the steamer *McNear*.

EDUCATIONAL.—We acknowledge the receipt of an invitation to attend the Marion County Teachers' Association, which will hold its next annual session, beginning Tuesday, 15th inst. The programme embraces the discussion of most of the usual school subjects, essays upon various matters, etc. A cordial invitation to all teachers and friends of education is issued.

PASSENGERS FROM THE NORTH.—The N. P. T. Co.'s steamship *Geo. S. Wright*, arrived yesterday morning from Puget Sound and Victoria, bringing the following named passengers: Hon. Horace Maynard and wife, C. T. Duncan, James Dunsmire, C. Bread, R. C. Ayer, L. Vidcant, W. H. Marsh, Raymond Wyman, H. Agathan.

STEAMSHIPS TO SAIL.—The N. P. T. Co.'s steamship *Oriflamme* will sail from this port for San Francisco at 7 o'clock this evening.

The same Co.'s steamship *Geo. S. Wright* will sail for Port Townsend, San Juan, Nanaimo and Sitka, at 7 o'clock P. M., Friday, the 4th inst.

A SEMI ROYAL CARRIAGE.—The carriage formerly used by Gov. Musgrave of British Columbia, was brought over by the *George S. Wright*. We understand that it was purchased at Victoria by Mrs. C. P. Bacon, who is visiting at that city.

EXCURSIONISTS.—Some thirty or forty of the passengers who arrived by the *Oriflamme* are said to belong to the large party of excursionists who recently came out by railroad to California, from Michigan, Illinois and Indiana.

LIBERAL.—The Walla Walla *Statesman* acknowledges the liberality of the O. S. N. Co. in transporting the fire engine recently sent through here, without charge from Portland to Wallula.

SCANDINAVIANS.—Mr. Haugen informs us that a considerable party left Christiana, Norway, on the 14th July for Portland. They will probably arrive within three weeks.

HYDROGRAPHIC SURVEYS.—A corps of U. S. topographic and hydrographic surveyors are at work in their peculiar line at Tongue Point, Columbia river.

NEWSPAPERARCHIVE®

The Daily Oregonian.

WEDNESDAY MORNING, AUGUST 2, 1871.

CITY.

FROM THE SUMMIT OF MT. HOOD.—Messrs. Francis and Anderson, of this city, recently ascended Mt. Hood, reaching home a week ago last Sunday. We are indebted to Mr. Francis for the following memoranda of things they found on the mountain top:

On a large boulder on the highest point of Mount Hood were found the following articles—half dollar, watch key, U. S engineer's button, three almost one with J. McKay cut upon it; two canisters, one having W. T. cut on one side of it and what appeared to be "Turnbull" on the other side; a small bottle with papers carefully rolled up inside of it; this was not opened; a small glass ornament like part of a stopper of a cologne bottle. Several papers were found, some in glass places by small rocks and, others in a bottle. From those the following memoranda were copied:

"July 18th, 1867.—Thos. W. May and Stephen May, Wm. Kearn, Sr., Portland, and Eldar Kearn, 11 years old, made the ascent August 18th, 1867." "On the back of a notice issued from Multnomah Lodge No. 12, I. O. G. T., to the effect that $3 50 was due to the Lodge from David Powell, was the following; "I had the honor of standing and standing on the top of Mount Hood[illegible] on the top of the monster, Aug. 26th, 1867, [illegible] the two first young (?ladies) that ever stood on the top of the monster, Aug. 26th, 1867, [illegible] First graduates of W. U. that ever [illegible] summit of Mount Hood. We have [illegible] ribbing cheers in honor of Miss [illegible] and Miss [illegible] they being the first [illegible] who ever ascended in reaching the summit [illegible] ing."

The party consisting of David Powell, James [illegible], J. M. Garrison, M. A. Robinson, and F. A. Case, started from the base of the mountain at 7 A. M. and reached the summit at 1:20 P. M." "At 2 P. M. F. S. C., they being the first [illegible] Miss L. J. Powell and lady ascended part of the way with them, but being so corpolent and not [illegible] so delicate, abandoned the march and returned their steps unanswered. J. M. Garrison, A. [illegible] Miss A. Robinson, M. E. L.; Fanny S. Case, Miss Mary A. Robinson, University, Salem, Oregon, graduates of Washington University."

Copy of *Demorest's Monthly Magazine* for August, 1867, with "I started from the base at 7 A. M. August 26th, 1867, and arrived at the top [illegible] again past 1 o'clock. FANNY S. CASE." "Small American flag with "Fanny S. Case, Aug. 26, 1867. Top of Mount Hood."

"Four men from Aurora been here this day [illegible] Aug. 15th, 1870."

"C. H. Scott, Aug. 15th, 1870."

"T. Stafford, Aug. 15th, 1870, in company with D. Powell, Mary E. McKee."

Copy of *Pacific Christian Advocate* of August 25th, 1867, with "D. Powell, Aug. 15th, 1870, and Mattie Powell, daughter of David Powell, aged 13."

A copy of *Pacific Christian Advocate*, of [illegible] 1866, and some other papers, but it was too cold to stay any longer to see what was [illegible]

WOMAN'S ADVOCATE AMONG US.—Mrs. Lauretta [illegible] Gordon, one of the distinguished advocates of woman suffrage, and various "rights" which women are after now, arrived at this city, having come unheralded. She gave our sanctum a call [illegible] and announced her purpose to deliver [illegible] at Ore Finn Theater next Friday [illegible] public lecture, though she [illegible] say so. Mrs. Gordon, though she has [illegible] some nice in the world, is not exactly the [illegible] woman we should have expected to see [illegible] to say, not a female gorgon or anything [illegible] ugly, to be frightened at or run away from. On the contrary, she is still young, with a pleasant face, and an easy, confidant, and [illegible] ing address. Woman positively asserts [illegible] that she does not wear spectacles, nor, [illegible] we could discover, false hair or [illegible]. If the women's advocates [illegible] to come in such guise, we think it would [illegible] at a hardship to welcome them with, [illegible] open arms, and to endure for a [illegible] their talking of the inhumanity of [illegible] to women. There is no doubt, the theater [illegible] will be well filled when Mrs. Gordon speaks, not [illegible] say that she will make it hot enough for [illegible] fellows who don't want her and thereat [illegible] welcome to visit.

THE COUNCIL CHAMBER FLOODED.—About two [illegible] this morning a boiled ladder in [illegible] building, who occupies a room directly [illegible] the Council Chamber, discovered a leak of [illegible] through the ceiling overhead. Upon making [illegible] exploration of the regions above, the Council Chamber was found flooded, water coming down through its ceiling much after the fashion [illegible] Webfoot rain. Further exploration [illegible] above revealed to the discoverer [illegible] upon a hydrant in the wash room of Buchtel [illegible] gallery. It had evidently been [illegible] for several hours, as the floor was covered [illegible] to the depth of an inch or more, while [illegible] was much water not only in the Council [illegible] but also on the ground floor below. The [illegible] of the discovery put a stop to [illegible] and rendered assistance to rescue the furniture of the [illegible] from damage. Yesterday the [illegible] although it had had a sudden and [illegible] at the hydrant, was still weeping great drops, which [illegible] chamber was striving to catch in [illegible] tubs, kettles, pans, etc. The ceiling and carpet will be greatly damaged and the furniture slightly. The hydrant had been left open by the [illegible] printer employed by Mr. Buchtel.

WOMAN SUFFRAGE CONVENTION.—The public [illegible] that at the last hour or two the circulars [illegible] All county dealers have been received [illegible] this city and vicinity, in great numbers. Not [illegible] as it could be deceived by such things, [illegible] and it is not at all improbable that [illegible] such may have taken the bait. If there are [illegible] such here, it will be interesting to them to learn that the authorities have dropped upon several of the counterfeit "chebange" and that a full list of the names of persons who have ordered [illegible] money is being prepared for publication, and that it will be furnished to the local and [illegible] all over the country.

FROM BELOW.—The steamer *Dixie Thompson* arrived last evening from Astoria, bringing a [illegible] list of passengers—men, women, children and [illegible]. They were mostly from the beach or other points to which excursionists are wont to go during the "heated term." The cold weather of the last few days has pretty effectually frozen out all the beach visitors except those who could stand in the front row around the fire. Capt. Simpson of the bark *Whistler* came up. He reports that the vessel will be up to-day, in tow of the *Jesse Harper*.

EDUCATIONAL.—We acknowledge the receipt of an invitation to attend the Marion County Teachers' Association, which will hold its next annual session, beginning Tuesday, 15th inst. The programme embraces the discussion of most of the usual school subjects, essays upon various matters, etc. A general invitation to teachers and friends of education is issued.

PASSENGERS FROM THE NORTH.—The N. P. T. Co.'s steamship *Oriflamme* arrived yesterday morning from Puget Sound and Victoria, bringing the following named passengers: Hon. Horace Maynard and wife, C. T. Davis, James Donnelly, C. Brown, R. C. Ames, L. Vidcent, W. H. Marshall, Raymond Kane and H. Agathan.

STEAMSHIPS TO SAIL.—The N. P. T. Co.'s steamship *Oriflamme* will sail from this port for San Francisco, at 7 o'clock this evening.

The same Co.'s steamship *Geo. S. Wright* will sail for Port Townsend, San Juan, Nanaimo and Sitka, at 7 o'clock P. M., Friday, the 4th inst.

A SEMI ROYAL CARRIAGE.—The carriage formerly used by Gov. Musgrave of British Columbia, was brought over by the *George S. Wright*. We understand that it was purchased at Victoria by Mrs. C. P. Bacon, who is visiting at that city.

EXCURSIONISTS.—Some thirty or forty of the passengers who arrived by the *Oriflamme* are said to belong to the large party of excursionists who recently came out by railroad to California, from Michigan, Illinois and Indiana.

LOSSES.—The Walla Walla *Statesman* acknowledges the liberality of the O. S. N. Co. in transporting the fire engine recently sent through here, without charge from Portland to Wallula.

SCANDINAVIANS.—Mr. Hansen informs us that a considerable party left Christiana, Norway, on the 16th July for Portland. They will probably arrive within three weeks.

HYDROGRAPHIC SURVEYS.—A corps of U. S. topographic and hydrographic surveyors are at work in their peculiar line at Tongue Point, Columbia river.

PERSONAL.

Wm. S. Buckley, Esq., formerly of this city, has been nominated by the Democrats for County Judge of San Joaquin county, California. Mr. B. stood high, when here, as a man of integrity, and if San Joaquin is to be encumbered with a Democratic officer, we think it can find few better men than Buckley.

Among the passengers from the seaside, by the *Dixie Thompson* last evening, we noticed Bishop Morris, Mr. D. W. Burbank and family, and numerous other Portland ladies and gentlemen. They report the seaside air rather nipping just now.

Mr. T. H. Crawford, of the North Portland school, returned yesterday from an extended to Linn county, across the Cascade mountains, and to Oshoco valley. He reports a good road across the mountains, and a fine grazing country on the other side. With his father, Dr. Crawford of Linn county, he visited the venerable Jas. H. Douthit, formerly of Linn county, and at one time President of the State Agricultural Society. We regret to learn that Mrs. Douthit was lying at the point of death.

Mr. C. A. Dolph, late City Attorney informs us that he will leave by the steamer of this evening for a visit to the Eastern States, to be absent about two months. He is going particularly to Western New York.

NEW MUSIC.—Mr. M. Gray, 121 First street, publisher of sheet music, has favored us with Vivians "Ten Thousand Miles Away." It is the song of a jolly disconsolate Hauglish chap who has seen his "Meg" go away forever from his sight, with "a gold ornament band around each hand and another round her leg;" to go somewhere which we are told is "Ten thousand miles away." It is a dismal story, for as we discover, the "Government banks" are shackles, and Meg was unquestionably a bad lot, who had fallen into a transport—bound for Van Dieman's Land. And yet the disconsolate lover, evidently another Mark Tapley, comes out strong, and under circumstances where to be jolly is a credit to him, gives us a song so dismally comic and so lamentably dismal that we can hardly decide whether to laugh or fall inconsolately into lamentations. Our present impression rather favors the latter alternative. As soon as we get leisure we are going to sing it, and try the effect upon some unprotected and friendless fellow creature who can't resent the injury.

THE EXCURSION TO OREGON CITY.—About one hundred people took passage on the steamer *Senator* last evening on an excursion to Oregon City. On the trip up the affair was enlivened by the singing of Mr. and Mrs. McGibeny and others. At Oregon City the party was met by a delegation headed by the Oregon City Brass Band, and were escorted to the Court House. Mr. Caples opened the meeting in a few happy remarks, introduced Rev. Mr. Iler, who spent some fifteen minutes in explaining the object of the excursion and meeting. Mr. Johnson, of Oregon City, followed and, after a few words, proposed a collection, which was made and some forty dollars were added to the fund for the aid of re-establishing a Church at Kalama, in aid of which the excursion was gotten up. During the meeting the Oregon City Band played several airs excellently and refreshments were indulged in. The boat's whistle having been sounded, all repaired to the river and embarked, for the return trip. The passage down was made pleasant by the singing of the Methodist Church Choir, assisted by Prof. McGibeny and wife. The excursionists arrived at the wharf at about twelve o'clock, well pleased with the trip.

RAILROAD SURVEY.—The party who went into the wilderness to spy out a route for the proposed railroad from Columbia City to the upper Wallamet valley, have completed their first survey of the grade from the summit of Cornelius Pass. They took a down grade of seventy feet to the mile and reached the Columbia bottom land near the old Victor sail works, about eight miles above St. Helens. The route, as to physical obstructions, is found quite similar to the mountain side from Portland to the Red House summit. From the Cornelius Pass down the west side of the mountain no survey has yet been made. It is said to be a pretty rough descent. There is another pass, north of this, where Davis creek and the Soappoose head near together, which will receive attention, after the completion of the survey through the Cornelius Pass.

A BAD ACCIDENT.—A man named William Parker, well-known in this city, while at work at the front on the Oregon and California Railroad, had the serious misfortune on Monday to split his foot and ankle open with a broadax. He was brought down here for surgical treatment. Mr. Parker is, we believe, a member of the Washington Guard, of the Odd Fellows' fraternity, the order of Red Men and one or two other associations. He is, therefore, likely to be taken care of.

AN INDIAN STAMPED.—One of Brown's Indians was employed by some man—name unknown—at the back part of the city, Monday afternoon. The Indian came in in the evening with several ugly cuts and reported that when he had finished work and wanted his pay, his employer attacked him with a knife, and that he was thus driven from the premises. The cuts were serious enough to require surgical treatment, which was procured by Mr. Brown.

A HAPPY RIDDANCE.—Mr. Dimp took away from this city yesterday over sixty Indians. Twenty-four of them were landed at Vancouver, and over thirty who belonged to the Yakima and other reservations in Eastern Washington Territory, were sent on to the Cascades or Dalles. Those belonging to the Wallamet reservations were sent to Oregon City, and by the afternoon train to Salem. We hope the Indian "cuss" is now wasted.

SAILING POSTPONED.—The *John L. Stephens* did not sail from San Francisco yesterday. Her departure was postponed till to-day, the dispatches say, to await the arrival of Ben. Holladay, Jr. who was en route to San Francisco per the Central Pacific Railroad.

FREIGHT MOVEMENTS FOR JULY.—It is estimated that not less than 15,000 tons of freight were moved during July last, by the dray companies.

REAL ESTATE AT AUCTION.—To-day at ten o'clock A. M. Mr. Richardson will sell several valuable lots in this city at auction.

Emmet Guard, Attention!—The regular monthly meeting of the Company takes place this (Wednesday) evening at 8 o'clock. A full attendance is required. By order of the Captain.

C. J. FITZGERALD, Sec'y.

WILLIAM DAVIDSON.

REAL ESTATE DEALER.

Office, No. 64 Front Street,

PORTLAND, OREGON.

Science Advances.

As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion unprincipled parties endeavor to replenish their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since, mercury, in the disguise of pills, powders, etc., was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length Hostetter's Stomach Bitters made its advent, and another new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged, and mineral poisons suffered to sink into that obscurity to which an enlightened age has consigned them. There have been many spurious bitters palmed upon the community, which, after trial, have been found perfectly worthless, while Hostetter's has proved a blessing to thousands, who owe to it their restoration to health.

For many years we have watched the steady progress of Hostetter's Stomach Bitters in public estimation, and its beneficent effects as a cure for all complaints arising from the stomach of a morbid nature, and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietors have made the above preparation, after years of careful study and testing, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only preparation of the kind that is reliable in all cases, and it therefore demands the attention of the afflicted.

A HOUSEHOLD BLESSING.

One that no family should be without. Very warming, very penetrating, very strengthening, very effective. A never-failing remedy for Rheumatism, Gout, Neuralgia, Paralysis, Pleurisy, Sore Throat, Colic, Cramps, Cholera Morbus, Swellings, Stiff Joints, Sprains, Bruises, Headache, Toothache, Earache, Pain in the Breast, Lame Back and all Lameness and Pain. Such is PRATT'S ANODYNE OIL. Price, large, $1 00; small, 50 cents. For sale by all druggists. Ask for PRATT'S ANODYNE OIL, and take no substitute.

PRATT'S NEW LIFE

The famous Vegetable Blood Purifier and Liver Invigorator, thoroughly purifies the Blood, speedily cures Scrofula, Skin Diseases, Humis old sores and ulcers and eradicates from the system all humors and disorders arising from impure blood. It stimulates the Liver and Kidneys, strengthens the whole system, operates mildly on the bowels, allaying all internal inflammation, and is the best Purifying, Regulating and Invigorating Remedy in the world. Price, $1 00. For sale by all druggists.

Agents for the Sale of Blocks and Lots in

HOLLADAY'S ADDITION

to

East Portland!

TO OUR PATRONS AND THE PUBLIC GENerally desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what a

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from great Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses also, Street improvements, under contract, by grading and planking, Holladay Avenue the entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

☞ Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. HENRY RUSSELL & WOODWARD, sole and other LAND AGENCIES in the city.

STITZEL & UPTON

MILLS SEMINARY.

REV. C. T. MILLS AND WIFE, FOR the past six years Principals of the Young Ladies' Seminary at Benicia, are happy to announce to their patrons and friends, that the next term of their well known Institution, will open

Wednesday, August 2, 1871,

In their New, Commodious and Beautiful Building, just completed at SEMINARY PARK, BROOKLYN.

A most delightful and easy-fenced corps of Teachers, with valuable accessions, as well as the fine corps of pupils now pursuing their studies remove with them, the school remains essentially unchanged with all the added facilities for physical comfort and intellectual culture without additional expense. Mr. and Mrs. Mills believe they can accomplish much more for their pupils in the future than they have been able to do in the past, in that this Institution offers unrivalled advantages for a thorough and finished education.

All communications relating to admission and all letters of inquiry should be addressed to

NEWSPAPERARCHIVE®

Romance.

DR. OLIVER WENDELL HOLMES.

Oh! she was a maid of a laughing eye,
And she lived in a garret cold and high.
And he was a threadbare whiskered beau,
And he lived in a cellar damp and low.

But the rosy ray of the cherub wing,
Hath many a shaft for his slender string,
And the youth below and the maid above
Were touched by the flaming darts of love.

And she would wake from her troubled sleep,
O'er his tender pillow to weep,
Or stand like a statue cold and fair,
And gaze on a lock of his brightened hair.

And he who was late a tall and proud,
With his step so firm and his head so bowed,
His head grew lean, and his face grew thin,
And he pined in solitude over his sin.

But one soft night, in the month of June,
As she lay in the light of the velocities moon,
A voice came floating soft and clear
To the startled ear of the listening fair;

O, then from her creaking couch she sprung,
And her tangled tresses back she flung,
She looked from the window far below,
And he stood beneath—her whiskered beau!

She did not start with a foolish frown,
But packed her trunk and scampered down,
And there on that low lost sad time,
In his threadbare coat of its brightest blue.

The star that rose in the evening shade,
Looked early down on the eloping maid;
The sun had risen in its morning pride,
Shed golden light on a laughing bride.

A "Regio Outrage" at Ohio.

[From the Cincinnati Gazette.]

A very unpleasant condition of affairs exists in the town of Bucyrus. A young colored girl has been guilty of outraging the constitutional rights of the daughter of the editor of that intensely Democratic paper, the *Bucyrus Forum*. The services of Rev. Nasby, Deacon Pogram and Elder Gaylit are much needed to restore quiet, and teach colored girls that the children of white people have an inherent and natural right of superiority.

We gather from the reports of Mr. John Hopley, the able and fair minded editor of the *Bucyrus Journal*, that this miserable trouble arose from an old-fashioned spelling match that some old-fashioned pedagogue had contrived for the delight of his pupils. If to this disciple of Roger Ascham it had occurred that this simple exercise was to be the occasion of a fierce attack on white girls' privileges, we make no doubt the voice of prudence would have been heard, and the match postponed or abandoned. Unfortunately, however, the teacher was not gifted with the faculty of second sight. He could not foresee the unworthy way a colored girl was to profit by the friendly rivalry. Among the scholars of the school was the daughter of a Bucyrus barber. The father and daughter were alike guilty of the heinous crime of being plank.

This was an outrage, of course, in itself; but it was a greater outrage that this young woman should be an attendant at the public school. But neither of these crimes is to be compared, for real downright wickedness, with the enormity of the offendant which that girl was guilty when she persisted in spelling down competition after competition, and in manfully daring to contest the chief honors of the match with the daughter of the editor of the *Forum*. It would have been hard enough had the daughter of an humble private in the Democratic ranks been thus insulted. But it was the daughter of the hero who served valiantly, and with fine vigor, through the columns of the Crawford county *Forum*, in much the same manner as the atrocious wickedness of the barber's black infant contributed in beating the daughter of the *Forum*. It was scandalous by the highest degree, and who can wonder that the able and fair minded editor was driven to avow in the strongest terms his detestation of the crime, and reprobated it very feelingly. He closed with that argument so dear to every true Democrat and so conclusive to every right thinking man, "How would you like to have your daughter marry a negro?" Mr. John Hopley thought just then it was time he should take a hand. He was so unconscious, so cruel as to lacerate still further the heartstrings of the rifled father. Whereupon Mr. Hopley replied with manly indignation, pride, and courage, proudly said that "Mr. Hopley has wounded the feelings of our family in a most unprofessional manner, and has covertly attacked the standing and intelligence of our little daughter, by comparing her with a daughter of Mr. Hopley, so intelligent and to the barber of this place." That delicate touch of nature, "Our little daughter," ought to convince every honorable man; and how fatefully *Mr. Forum* puts the finishing touch to the daughter's triumph! That had committed the outrage. We do not wonder that genuine Democrats felt the atrocity of the deed keenly, for he has been proving for the last three years that the negro is only the first remove from an ape. But will it be believed that Crawford county is so dead to all pride of race, to all faith in the indomitable superiority of the white child-ren over blacks, as to sympathize with the dark offending rather than with the wronged editorial family? That is the solemn fact.

If such outrages as these continue in Crawford county, the editor, who is the glory and illumination of that part of the State, will have soon to emigrate. In fact, we are not sure but it is best for him to go now. Crawford's Democracy are responsible for him. Let him go to Mississippi or Texas. There he can join the Ku Klux and whollop niggers every day and shoot them every night for such crimes as that of this mulatto girl, and he will be sustained by a large and intelligent community of good, simon-pure Democrats.

Gold and Silver Product of the Pacific Coast.

From an article in the August *Overland*, entitled "Mining on the Pacific Coast," we extract the following:

The gold and silver annually produced upon the Pacific coast approximates $30,000,000; an amount that will be greatly increased within the next two or three years. Only a little more than seventy years have elapsed since we began mining for these metals, during which time we have extracted and put into circulation something over $1,200,000,000; to say nothing of the other forms of wealth created by the comparatively limited population, meantime. Never before, perhaps, have so small a number of people built up and established upon a permanent footing such a broad and profitable business in so short a period. But this has not been accomplished without much loss to individuals, and even the most costly sacrifices on the part of large class of the community. As in the founding of every other important industry, time and the expenditure of vast sums of money have been required to bring mining to its present state of perfection; nearly all the experiments and trials made in the furtherance of this business having been carried on under conditions involving great hardships and heavy expense.

Hence while it has brought ample reward, and even opulence, to some, it has inured only in loss to the many, who have, consequently, felt sore over their want of success; seeking often to attribute, and sometimes with good cause, their failure to the fault of others. Thus, the prospector and locator of mines are wont to accuse the capitalist, and *vice versa*, each conceiving that the other has been overreaching, remiss, or otherwise instrumental in working him a wrong. The indiscriminate indulgence of this feeling, though natural enough, is apt to do both parties injustice, since, overlooking exceptional cases, a survey of the field of operations, so remote and vast, and a consideration of the troubles inherent to a new and difficult business, tend to show that these fancied wrongs were generally the result of excusable ignorance or unavoidable necessity, rather than of willful error. And, as such, they should be overlooked in passing judgment upon the pioneers in this great industry.

Napoleon Resty.—The ex-Imperial household at Chiselhurst affect a very economical style of living, notwithstanding the fact that the ex-Empress has jewelry in her possession which she desires to dispose of for the round sum of $1,000,000. That lady may be seen taking her daily promenades in a calico suit, which we think cost more than six or eight dollars, while his ex-Majesty excites the commiseration of all beholders by appearing in that livery of the decayed gentleman—a seedy-looking black suit. It would give more interest to add that the shiny seams give evidence of having been freshly inked, but the truth of history must be vindicated. His Majesty is as yet only seen in gentle in his wardrobe. This affectation of poverty is said to be for political effect.

FINANCE AND COMMERCE.

TUESDAY EVENING, August 1, 1871.

Gold in New York, 112⅝; exchange on San Francisco, coin, par; currency ⅛ per cent. prem; on New York, 10¼ per cent. prem; telegraphic transfers on San Francisco, ⅜ per cent. prem; on New York, 1⅛@1¼ per cent. prem.

The regular monthly collections were met with very general ease, as we could hear of no complaints in any quarter of obligations not being promptly met.

A. B. Richardson & Co. hold their regular auction sale of Groceries, etc., to-morrow, Wednesday.

Bark *Edward James* went to sea on the 29th, bound for San Francisco.

Bark *Nicks*, from Boston, is discharging railroad iron at Kalama, as is also the bark *Kreat*.

Bark *Skiddaw*, with railroad iron from Newport, Wales, is discharging at Tide's. She is open for charter.

Bark *Good Hope* sails for Honolulu via San Francisco on the 5th, for orders to go to one of the guano islands for cargo for Cork.

Bark *Whistler*, from San Francisco with cargo of assorted merchandise, will be up to-morrow, Wednesday.

The progress made by our millers in manufacturing Flour excites the fears of California millers and causes them to put forth renewed efforts to sustain themselves, even at their home market, but notwithstanding all their efforts, we consider from evidences before us, that if our millers wish, they can control, as they now do, that market. Oregon Flour will, until within a later period, was not as well known in the San Francisco markets as its quality deserved, but within the last two years, and more particularly the last year, foreign shippers, who are always loth to try new brands, were induced to ship. The consequence has been that as fast as more received of the most flattering reports. We append a table of the voluminous shipments from this market to San Francisco during the past two years. The Flour shipped during the past year, we are informed here, that is, the majority of it, consists of qualities suitable for bakers and families, the bakers who have tried it, giving it the preference over home Flour.

	1869 70. bbls.	1870 71. bbls.
July	3,369	16,852
August	2,538	11,584
September	8,091	5 213
October	7,295	13,780
November	14,269	9,747
December	18,107	11,298
January	16,703	15,051
February	17,347	17,304
March	10,736	19,617
April	9,503	10,544
May	7,774	24,885
June	7,090	14 100
	123,422	139,936

The table shows an increase in the shipments of 1870-71 over that of 1869-70 of 63,124 bbls, and this in the face of dull export demand. The coming season we do not anticipate as heavy shipments to the San Francisco market as last season, for our millers will probably sell direct to foreign shippers, who have tried the Oregon Flour to their markets.

The direct shipments of Wheat last season to the United Kingdom from the Coast met with satisfactory result and together with the good condition of the Wheat and its excellent quality upon receipt, justifies the conclusion that direct shipments can only been inaugurated. The railroads are now capable of forwarding heavy shipments of Grain, and a vessel can load with grain can and will probably be chartered to load Wheat on return cargoes. We append a statement of vessels sailing with cargoes of Wheat, direct from here to the United Kingdom:

Cleared.	Name of Vessel.	Destination.	Centals	Value.
July, 1870	Hercan Doctor	Cork	11,200	$21,510
Sept. "	Alpha	Cork	10,850	20,560
Oct. "	Euvia	Queenstown	14,653	24,500
Nov. "	Todensjold	Cork	15,607	22,928
Dec. "	Lyon	Cork	13,912	25,500
Dec. "	Monte C. Costa	Liverpool	21,419	35,238
Jan. 1871	Ganges	Cork	15,830	28,410
Feb. "	Rosedale	Liverpool	13,607	28,619
March "	Texas Proposits	Cork	18,520	30,370
April "	Prince of Wales	Cork	14,274	23,658
May "	Bayard	Cork	16,000	28,805
June "	Panama	Cork	24,602	55,100
	Total		108,059	$292,934

We have advices of five vessels now on the way to this port with railroad iron, and one with a cargo of assorted merchandise, all from the United Kingdom; besides there are expected to follow; the number to arrive in San Francisco are in excess of what are required to export the California surplus of Wheat, and we conclude that many vessels will be chartered in that port to load Wheat here for foreign markets. But still our farmers must take into consideration that the price for Wheat in Europe is dropping, which would indicate more favorable crop advices in the United Kingdom and Europe, and consequently prices here will have to correspond with the English market, or else shippers will necessarily be out of the market. Vessels arriving are not compelled to take return cargoes of Wheat, as cargoes of lumber can be obtained.

We learn from Walla Walla, Washington Territory, papers that it rained quite heavily there upon Friday of last week, causing fears to be expressed that the crops would be damaged to some extent. We also learn that parties were offering 60 cents per bushel for Wheat, but the farmers were not willing to sell, preferring to take chances for a higher market.

Merchandise Report.

SACKS—We note sale of 50,000, standard size, at from 13@13½ cts.

BARLEY—Sales aggregate 30,000 lbs McLaren's, in lots of 10 tons, at from 1½ to 1¾c.

PROPOSALS.

Engineer Office, U. S. Army,

PORTLAND, OREGON, July 27, 1871.

SEALED PROPOSALS IN TRIPLICATE, WITH a copy of this advertisement attached, will be received at this office, until 10 A. M., on August 12, when they will be opened in the presence of bidders, for Dredging a Channel through the rapids of the Umpqua river, Oregon.

Plans, specifications and forms for proposals, can be obtained at this office.

Bids must be endorsed, "Proposals for the improvement of the Umpqua river, Oregon."

HENRY M. ROBERT, Major of Engineers.

jy23d3t

Proposals for the Construction of a Portion of the Breakwater at Wilmington, Cal.

SEALED PROPOSALS IN DUPLICATE, WITH a copy of this advertisement attached, will be received by the undersigned until 12 M. on the 15th day of August, when they will be opened, for the construction of about 3,700 lineal feet of the Breakwater at Wilmington, Cal., in accordance with drawings and specifications to be seen at the U. S. Engineer's Office, No. 533 Kearney street, San Francisco.

The timber to be used in the construction, will be furnished by the United States, piled on Rattlesnake Island, adjacent to the work.

Bidders will offer for each kind of construction, designated as numbered on the drawings, Nos. 1, 2 and 3, in gold coin, per running foot.

Each bid must be accompanied by a guarantee from two responsible parties to the effect, that the bidder will enter into contract, if awarded him and he is accepted.

A bond in the sum of $5,000, for the faithful performance of the contract, with two responsible sureties, will be required of the signing of the articles of agreement.

The work is to be commenced in the first week of September, or on the arrival at San Pedro of the first cargo of timber and is to be completed on or before the 1st day of March, 1872.

Payments will be made monthly by checks on the U. S. Treasury, of U. S. in this city, to the amount of 75 per cent. of the contract price of work completed and accepted, during the previous month, the remainder to be paid on the completion and acceptance of the whole work to the satisfaction of the Chief Engineer.

Proposals will be endorsed "for construction of the Wilmington Breakwater," and addressed to

G. H. MENDELL, Major of Engineers.

San Francisco, Cal., 21st July, 1871. jy22d3t

Dec. 9, 1869. dtf N. W. SPAULDING.

FIRE! FIRE!

JOHN H. SIMS,

Manufacturer of Fire-Proof Doors, Shutters & Bank Vaults,

GRATING, CEMETERY RAILING, BALCONIES, &c., Oregon street, between Front and Davis, Washington and Jackson, San Francisco.

All orders from the Interior, Oregon and Washington Territory, or any place on the Pacific Coast, attended to with promptness and dispatch.

Mr. SIMS appreciates the most liberal patronage of his friends, and trusts he may continue to merit it in the future. For the information of strangers he would say that his long standing and well established reputation in his particular calling is surpassed by none on this coast, which his superior work, sent to almost every town in California, Oregon, Victoria, and Sandwich Islands, will attest to beyond question. His office on Sansome street, San Francisco fully attest the above.

Also—A very large lot of Second Hand Shutters, of various dimensions, all to be sold at very low rates.

Mr. E. H. BURTON, Portland, Oregon, will forward orders for Iron of all kinds free of charge.
